

ROGRIND 13.45RS Rail Grinding Machine

**For precise grinding of welding joints and for reprofiling the complete rail head.
Can also be used in switches, for frogs and for grinding grooved rails.**

THE ADVANTAGES. YOUR BENEFITS.

Leight-weight machine. Powerful grinding results.

- Excellent view of the cup wheel and rail
- High machine availability thanks to durable clutch
- Low maintenance of the machine (e.g. simple starter rope replacement on the construction site, protection of the spindle against grinding dust)
- Sturdy stainless steel tank
- Easy changing of cup wheel thanks to Quick Lock
- Rotational resistance can be adjusted at spindle hand wheel without the use of any tools

Easy operation. Safe working.

- Ergonomic use due to low centre of gravity
- Side stand for safe placement of machine (left-hand guide handle)
- Exhaust gas routing away from operator, even when side grinding
- LED lighting

TECHNICAL SPECIFICATION

Drive	One-cylinder 4-stroke engine (Honda)
Type	RGX200
Output	4.6 kW
Weight	from 55 kg
Roller spacing	850 mm
Dimensions (L x W x H)	1080 x 515 x 765 mm

ACCESSORIES

- 5158930018 Extension arm
5158930019 Additional rollers for grooved rails and switches

Cup wheels

- 9002000687 Ø 125 mm central nut holder M20
