

ROPOWER 70.02 Hybrid Drive Unit

For powering:

- ROGRIND 13.49 E³ Hybrid Rail Head Profile Grinding Machine

THE ADVANTAGES. YOUR BENEFITS.

- ROBEL supercaps in the power pack allow for the storage of excess energy from grindstone idling and will release it again during load peaks.
- Oil level monitoring with automatic shut-off when low
- Especially smooth and low-vibration engine run

ROPOWER 70.02 - 502990002

SPECIFICATION

Drive	4-stroke engine
Type	Honda GX200
Output	up to 7.0 kW
Total weight	from 49.5 kg

ACCESSORIES

- 5026930001 Discharging box
for discharging the supercaps for maintenance

Discharging box - 5026930001

ROPOWER 70.03 Power Supply

As alternative drive for machines with brushless electric motor:

- ROCUT 13.90 E³
- ROGRIND 13.45MD E³
- ROGRIND 13.49 E³
- ROCONVERT 72.01 E³

ROPOWER 70.03 - 503990003

SPECIFICATION

Input voltage	400 VAC* 50/60 Hz
Input power	11 kW
Output power	10 kW
Weight from	18 kg
Length of connection cable	5 m (CEE-32A safety plug)

*VAC = Volt a.c. current; *VDC = Volt d.c. voltage
