ROCONVERT 72.01 E³ Battery Conversion Kit

The alternative to new investment.

THE ADVANTAGES. YOUR BENEFITS.

Extended operational range
- BLDC electric motor, in particular for tunnels and urban areas
- Maximum flexibility due to various types of drive (battery or power supply)

Benefits for environment and budget
- Cost savings from conversion instead of new purchase
- Increased availability due to reduced drive maintenance

Pleasant working for the operator
- Very fast availability (at the push of a button)
- Reduced noise emissions
- Reduced hand-arm vibrations

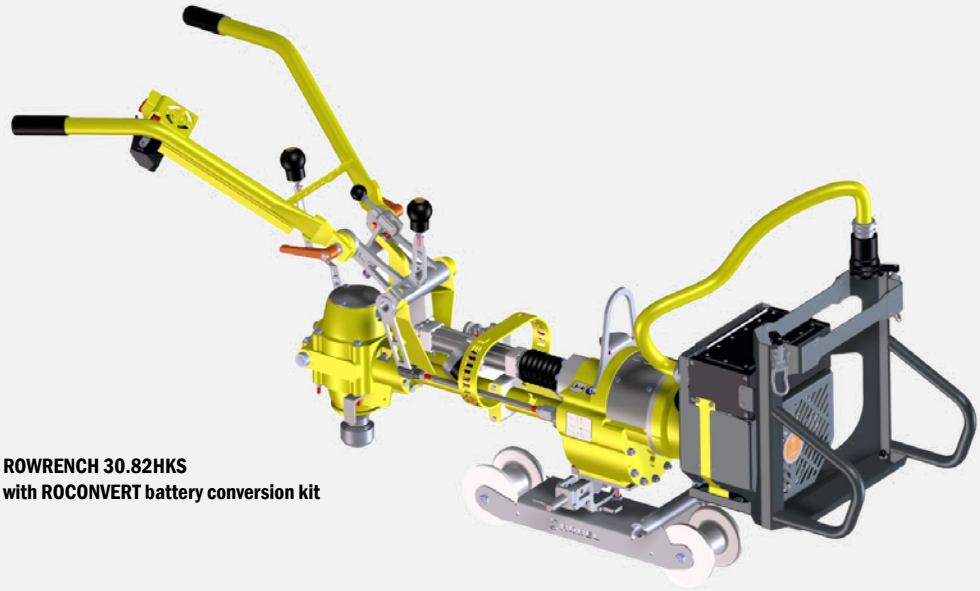

SPECIFICATION

Type	BLDC electric motor
Output	4.0 kW
Expansion possible	30.82 & 30.82HKS (with Honda GX200 or electric motor 400V, 50Hz)
Number of wrenching cycles	approx. 1000 wrenching cycles per charge of 2300 Wh battery (*)
Expansion possible	34.01 (with Honda GX200)
Clipping time	approx. 90 min clipping time per charge of 2300 Wh battery (*)
Dimensions (L x W x H)	500 x 400 x 450 mm
Weight	
Battery conversion kit	17.5 kg
Battery 2300 Wh	17.5 kg
400 Volt power supply	18.0 kg

(*) Depending on type of track, condition of track, torque required etc.

ACCESSORIES

7839900001	Battery 2300 Wh
7879900201	Charger for battery 2300 Wh
5039900003	Power supply, 400 Volt – 60 Volt (incl. shoulder strap)
9000208017	Battery box for battery 2300 Wh

ROWRENCH 30.82HKS
with ROCONVERT battery conversion kit

Battery 2300 Wh –
7839900001

400 Volt power supply –
5039900003

We will be happy to convert your machine in Freilassing.
